Vehicle numbers provided in the map to the upper left are computed using the PAG travel demand model, which estimates travel on major streets in the regional network.

The map shows daily vehicle miles traveled (VMT) for the 20 road segments with the highest VMT in the Tucson region. These segments account for 2,926,370 VMT, which is 15% of the total regional daily VMT.

2012 Traffic Volumes in Metropolitan Tucson and Eastern Pima County

Note: Traffic volumes are derived from PAG, City, County and State traffic counting devices. Seasonal variation is not factored into the volumes. All counts shown on the interstate and state highways are estimates provided by ADOT.
